

**REMARKS**

Claims 21-40 are pending in the application. Claims 1-20 have been canceled without prejudice or disclaimer. Claims 1-20 have been rewritten as newly presented Claims 21-40, respectively. Claims 21-40 have been written in more typical US format for purposes of clarification and not to limit the scope of prior claims 1-20. No new matter has been added.

The rejection of Claims 1-20 under 35 USC 112, second paragraph as being indefinite has been addressed by the amendments to the claims and/or is not deemed tenable. For example, the claims now recite “comprising” in place of “characterized by”. In addition, the claims no longer recite “at least as far as its main part through the wall of the same”. Claim 21 clarifies the term “an all-over perforation with the desired e-dimension between all the perforations” by including language from pages 4 and 5 of the specification.

In view of the above, consideration and allowance are respectfully solicited.

In the event the Examiner believes an interview might serve in any way to advance the prosecution of this application, the undersigned is available at the telephone number noted below.
